

First Peptide Box

Rigid lift-off lid box: artwork and manufacturing specification

| | |
|------------------------|--|
| External size | 180 mm W x 120 mm D x 45 mm H |
| Internal target | 168 mm W x 108 mm D x 36 mm H |
| Structure | Rigid two-piece lift-off lid box |
| Board | 1.5-2.0 mm greyboard or equivalent rigid board |
| Wrap | Matte soft-touch white paper, 120-150 gsm |
| Finish | Graphite logo on lid; optional spot gloss or silver foil |
| Tamper evidence | Clear side seal or branded security sticker |

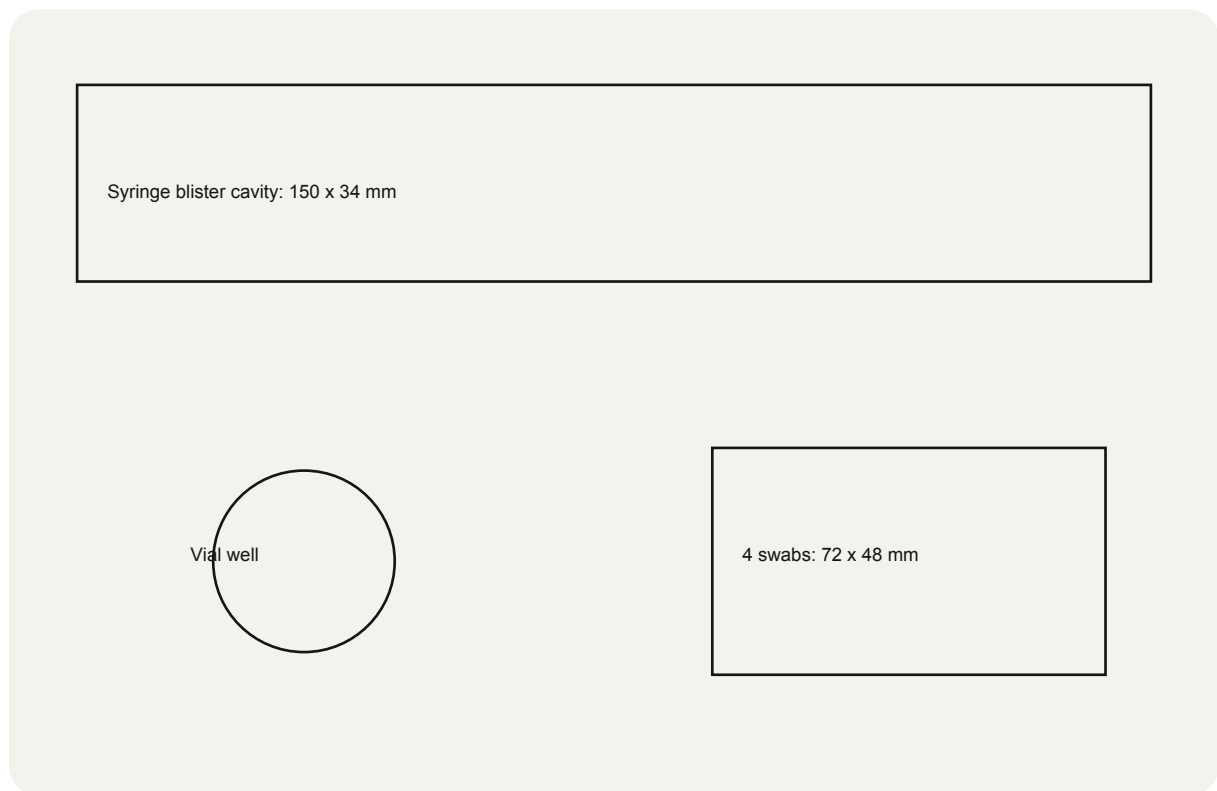

Production notes

- Keep logo centered on lid top.
- Use website colors: black #080908, chalk #f4f2ed, lime #cdf35a.
- Box should feel clinical, premium, and minimal.
- If cold-chain is required, this box sits inside the approved shipper.

Open tray reference for supplier and fulfillment

Final check before tooling

- Confirm exact syringe blister length and width with selected supplier.
- Confirm swab packet size before cutting foam.
- Confirm vial cap diameter and label orientation.
